Screenshot of a web browser window showing the "MERN Classroom" application at localhost:3000/teach/course/60cb9b873e5d0fa6ef9f82c1.

The page displays a course titled "React for Beginners" by Ana, categorized under "Software Development". The course description states: "Learn Basics of the React JS library and get started building dynamic, interactive web applications." Below the description, there is a thumbnail image featuring the React logo.

A modal dialog box is open, titled "Publish Course", containing the message: "Publishing your course will make it live to students for enrollment. Make sure all lessons are added and ready for publishing." It includes two buttons: "CANCEL" and "PUBLISH".

The sidebar on the left shows the course structure:

- Lessons (2 lessons):
 - 1 React
 - 2 React Getting Started
- NEW LESSON

At the top right of the main content area, there are three buttons: "PUBLISH", "Edit", and "Delete".

The browser's address bar shows the URL: localhost:3000/teach/course/60cb9b873e5d0fa6ef9f82c1.

The top navigation bar includes links for "TEACH", "MY PROFILE", and "SIGN OUT".

A screenshot of a web browser window titled "MERN Classroom". The address bar shows the URL "localhost:3000/teach/course/60cb9aa33e5d0fa6ef9f82c0". Below the address bar, there is a horizontal row of various search and download links. The main content area displays the title "Node.js Fundamentals" and the author "By Ana". A "Software Development" tag is present. Below this, the Node.js logo is shown, consisting of the word "node" in black and green hexagonal letters, with a green "JS" logo underneath. The page also features a "Lessons" section with four numbered items: "1 Install Node.js", "2 Node.js Module System", "3 HTTP Module", and "4 File System".

Title **Node.js Fundamentals** 

By Ana

Category Software Development

Description Get familiar with the core concepts of Node.js before you start building Node.js applications for the enterprise.

Lessons - Edit and Rearrange

4 lessons

1 Title **Install Node.js**

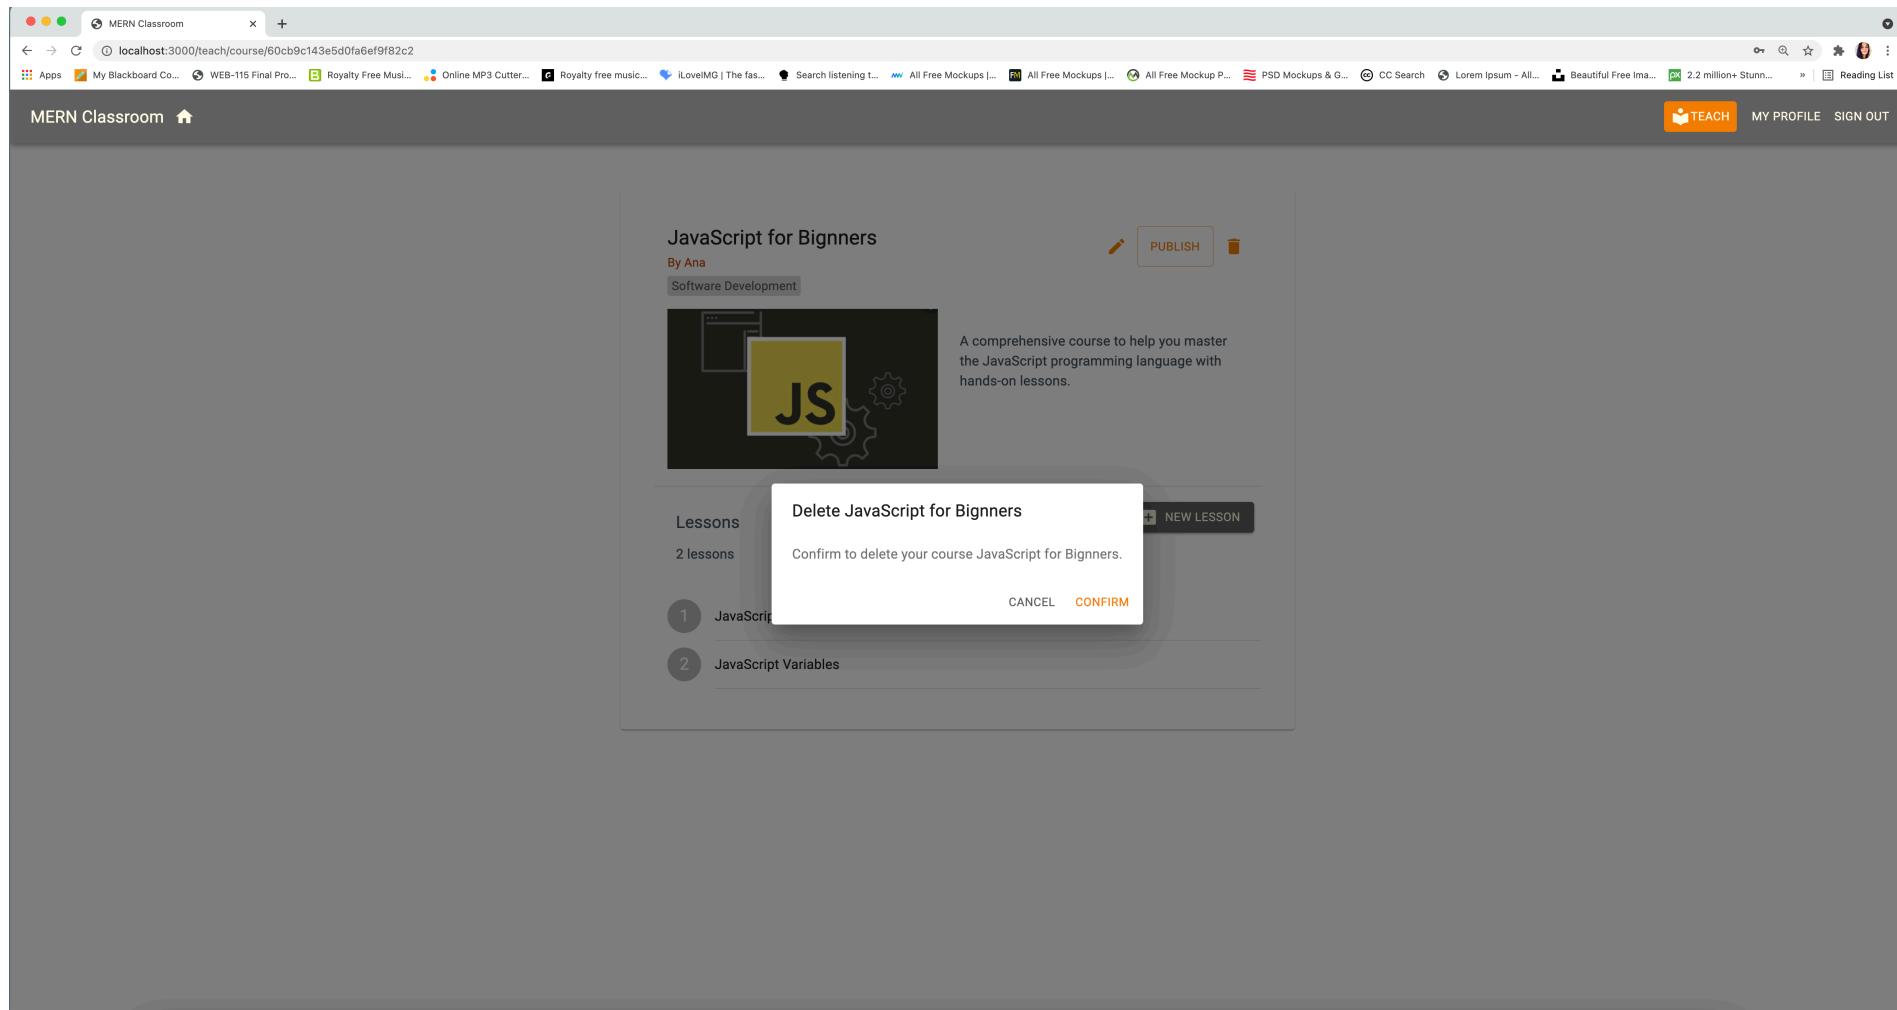

Content To get started with Node.js, you first need to download the Node.js source code or a pre-built installer for your platform and install it.

Resource link <https://nodejs.org/en/download/>

2 Title **Node.js Module System**

Content In the Node.js module system, each file is treated as a separated module or a JavaScript library that can be used across the application code.
